

## Wednesday Challenge Form

Group Members: Half of the Class (#1s)

**Problem Statement:** Try to get as many marbles into the paper bag at the end of the line by lining up and holding up open tubes for one marble at a time to travel down without allowing the tubes to touch each other, and try to beat the other team (#2s).

**Approach:** There really was no approach except for teamwork and patience in trying to get the marble into the paper bag. However, the #1s (my team) decided to move the marble slowly after realizing team #2s were doing that and becoming more successful.

**Solution:** The #1s got in more marbles but used poor teamwork, so the #2s won in Mr. Neat's opinion.

**Lessons Learned:** We should use better teamwork and be more patient when doing this.
